Patent No. : 7,431,942 B2  
Inventor(s) : Toshihiro Shimizu, et al.  
Issued : October 7, 2008  
For **ORALLY DISINTEGRABLE TABLETS**  
Doc. No. **20039.0009USC1**

To Whom It May Concern:

The Certificate of Correction issued on June 22, 2010, issued in error, in that error(s) was made in identifying the patent number and/or keying text/corrections, i.e.:

The applicant requested a certificate of correction to be issued to correct error at Column 28, line 13 originally on February 2, 2010 along with other corrections. The certificate of correction was issued March 16, 2010 but in the correction at Column 28, line 13, in the text how patent is to read, "2" should be changed to read "a", as requested by applicant in request for certificate of correction dated May 4, 2010. The certificate of correction should have been treated as a certificate of correction to supersede the certificate of correction issued March 16, 2010. But instead, a certificate of correction was issued June 22, 2010 referring to Column 28, line 13, changing "2" to --a--. For record clarity, the office will prepare a renewed certificate of correction displaying the correction: -- Column 28, line 13, "an" should read --a--. -- along with the remaining errors published in the certificate of correction issued March 16, 2010. The certificate will state that the certificate supersedes certificates of correction issued March 16, 2010 and June 22, 2010.

---

Therefore, a certificate of correction will be issued to correct (supersede) the Certificate of Correction containing error(s), made during preparation of the Certificate of Correction, as noted above.

No further response is required, from applicants (attorney). However, errors discovered by attorney, other than as noted and described above, should be noted on *a copy* of the Certificate of Correction that was issued in error, accompanied by a signed transmittal letter and submitted directed to this Branch.
